<tr>
<th>No Value</th>
<th>Little Value</th>
<th>Valuable</th>
<th>Very Valuable</th>
</tr>
</thead>
</table>
2. Are you currently enrolled as an ACN Masters student? 

3. Are you currently enrolled as a HCS Doctoral student? 

4. Are you a recipient of the “ACN Scholarship Award?” 

5. Rate the overall quality of education received as an ACN student on a scale of 1 to 4  
(1 = poor quality education; 2 = acceptable quality education; 3 = good quality education; 4 = excellent quality education): 

6. Rate the overall “breadth” of education received as an ACN student on a scale of 1 to 3  
(1 = very narrow and very focused; 2 = neither too narrow or too broad; 3 = very broad and very multidisciplinary). 

7. Rate the overall “depth” of education received as an ACN student on a scale of 1 to 3  
(1 = very narrow and very focused; 2 = neither too narrow or too broad; 3 = very broad and very multidisciplinary). 

8. Has the ACN program been helpful in assisting you in achieving your post-graduate objectives (yes or no)? 

9. Does the School of Behavioral and Brain Sciences have permission to identify you by name and place some information you have included on this questionnaire on the web for the purpose of promoting the ACN Program? 

10. Specify your post-ACN graduate career objectives. If the ACN program has been helpful in achieving these objectives, explain why (e.g., coursework, internship experiences, etc.). If it has not been helpful, explain why. Give your answer in 4-8 sentences. Students currently enrolled as doctoral students should state their post-doctoral career objectives. 

11. Please describe your ACN internship and/or research experiences in this program by giving a brief 4-8 sentence summary of these experiences and discussing in additional 2-8 sentences how these experiences have assisted you in achieving your post-ACN graduate career objectives. Students currently enrolled as doctoral students should briefly describe their research work.
