

STUDENT NAME
The University of Texas at Dallas
School of Behavioral and Brain Sciences
Doctoral Program in Psychological Sciences

Annual Report of Scholarly Activities and Accomplishments
Covering Activities May 200X – May 200X

I. Courses Completed

| <u>Semester</u> | <u>Course Number</u> | <u>Course Title</u> | <u>Grade</u> |
|-----------------|----------------------|---------------------|--------------|
|-----------------|----------------------|---------------------|--------------|

II. Program Requirements Completed

- a) Previous Year (Provide detailed information about the progress made in the past year toward meeting your research goals, such as studies designed, analyses conducted, articles written, data collected, etc.)
- b) All Requirements completed (List and provide dates of all program requirements completed, e.g., Qualifying Thesis Proposal defended, Completion of Qualifying Thesis, Oral Presentation of Qualifying Thesis, Dissertation Proposal defended, etc.)

III. Scholarly Activity

- a) Peer-reviewed publications
- b) Complete chapters in edited volumes
- c) Refereed conference presentations or abstracts
- d) Invited lectures or colloquium presentations
- e) Submitted manuscripts, including when submitted and to whom
- f) Submitted conference presentations, including when submitted and to whom
- g) Other activities

IV. Proposal and Grant Activity

- a) Proposals submitted: Title, agency, time duration, total requested
- b) Grants received: Title, agency, total requested, amount granted

V. Teaching Activities (For each course, provide the course number, course name, role in course, and describe the major teaching activities in which you were engaged)

VI. Professional Service Activities (special service contributions to Program, School, or University; service contributions external to UTD related to professional development)

VII. Special Professional Recognition

- VIII. Goals for Upcoming Year (In detail, describe your goals for degree requirements and professional development for the upcoming year. Then provide a timeline of steps that need to be taken during the next year to meet your goals. Your schedule should include steps such as literature to be read, studies to be designed and completed, analyses to be conducted, articles to be written, committee meetings to be scheduled, and preparation and submission of papers to conferences.)
- IX. Anticipated Timeline for Degree Completion (List dates by which you expect to meet your remaining program requirements, such as completion of Qualifying Project, Defense of Dissertation Proposal, Completion of Dissertation.)
