
Christa K. McIntyre: *Curriculum Vitae*

February, 2021

Christa K. McIntyre
School of Behavioral and Brain Sciences
Department of Neuroscience

Educational History

B.A. (1994) American University, Washington, D.C.

Thesis: A psychopharmacological comparison of cholecystokinin and morphine

Advisor: Anthony Riley

Ph.D. (1999) University of Virginia, Charlottesville, VA, Psychobiology

Dissertation Title: Competition and Cooperation of Multiple Memory Systems,

Advisor: Paul E. Gold

Postdoctoral Fellow (1999-2006) University of California, Irvine, CA

Neurobiology of Memory and Emotion

Advisor: James L. McGaugh

Employment History – positions since the Bachelor’s degree

Graduate Researcher, Psychobiology (1994-1999), University of Virginia, Charlottesville, VA

Teaching Assistant, Psychobiology Lab (1994-1998), University of Virginia, Charlottesville, VA

Postdoctoral Researcher, Center for the Neurobiology of Learning and Memory, (1999-2006), University of California, Irvine, Irvine, CA.

Editor, Write Science Right: www.writescienceright.com (2003-2006), Irvine, CA.

Instructor, Graduate level Psychopharmacology (Fall, 2005), Chapman University, Orange, CA.

Assistant Professor, Behavioral and Brain Sciences (2006-2013), University of Texas at Dallas, Richardson, TX.

Associate Professor, Behavioral and Brain Sciences (2013-present), University of Texas at Dallas, Richardson, TX.

Neuroscience Program Head, Behavioral and Brain Sciences (2014-2016), University of Texas at Dallas, Richardson, TX.

Cognition and Neuroscience Program Head, Behavioral and Brain Sciences (2016-2017), University of Texas at Dallas, Richardson, TX.

Research Interests

My research is focused on understanding the effects of acute stress on memory. Whereas chronic stress tends to have an impairing effect on memory, acute stress has the potential to enhance memory consolidation. In my laboratory, we examine the physiological responses that contribute to the enhancement of stressful memories and we test tools and approaches that might be used to treat anxiety disorders that are associated with traumatic memories.

Professional recognitions and honors (study, teaching, research, service)

Dissertation Fellowship (1998-1999), University of Virginia

Ralph W. Gerard Fellowship (1999-2000), Center for the Neurobiology of Learning and Memory, University of California, Irvine.

Roger Russell Award for scholarship and Collegiality (2002), Center for the Neurobiology of Learning and Memory, University of California, Irvine.

Aage Møller Teaching Award (2013), School of Behavioral and Brain Sciences, The University of Texas at Dallas

UTD Nominee for Chancellor’s Teaching Award (2016), The University of Texas at Dallas

Nominee for President's Teaching Award (2017), The University of Texas at Dallas

Professional memberships

Society for Neuroscience (1995-present)
Cellular and Molecular Cognition Society (2007-present)
Pavlovian Society (2018-present)

Achievements in original investigation:

1. Souza R, **McIntyre CK**, Hays SA, and Kilgard MP. Optimization of vagus nerve stimulation timing parameters for enhancement of extinction of conditioned fear in rats. (Submitted)
2. Souza RR, Oleksiak CR, Tabet MN, Hays SA, Rennaker RR, Kilgard MP, **McIntyre CK**. Vagus nerve stimulation promotes cross-modality extinction generalization between auditory and olfactory cues. (Submitted)
3. Souza L, Demetrovic PG, Nunes-de-Souza RL, Planeta CS, Lalumiere R, **McIntyre CK**. The involvement of the left infralimbic prefrontal cortex in anxiety and fear extinction resistance after a single prolonged stress procedure. (In preparation)
4. Alvarez-Dieppa AC, Cavalier S, Griffin K, and **McIntyre CK**. Vagus nerve stimulation reverses extinction deficit in a rat model of autism. (In preparation).

Invited or refereed presentations in professional meetings and seminar or colloquia assemblies:

1. **The Brain** California State, Fullerton, Fullerton CA (summer 2002)
2. **Roger Russell Award**, Center for the Neurobiology of Learning and Memory, Irvine, CA (fall 2002)
3. **Brain system interactions in the consolidation of memory**, Dartmouth College, Hanover, NH (spring 2004)
4. **Brain system interactions in the consolidation of memory**, Texas A& M, College Station, TX (spring 2005)
5. **Brain system interactions in the consolidation of memory**, Florida Atlantic University, Boca Raton, FL (spring 2005)
6. **Brain system interactions in the consolidation of memory**, University of Texas at Dallas (fall 2005)
7. **Brain system interactions in the consolidation of memory**, University of Vermont, Burlington, VT. (spring 2006)
8. **Brain system interactions in the consolidation of memory**, University of California, Santa Barbara, CA. (spring 2006)
9. **The Brain**, Plano East High School, Plano, TX. (fall 2006)

10. **Intra-medial prefrontal cortex glucocorticoid infusions enhance memory consolidation and increase phosphorylation of Erk I/II in the amygdala**, Annual Learning and Memory Winter Conference, Park City, UT. (January 2007)
11. **Anxiety and posttraumatic stress disorder**, Microtransponder, Inc., Richardson, TX: (August 2008).
12. **Emotionally arousing experiences leave a mark on the brain**, Association for Psychological Sciences, San Francisco, CA. (May 2009)
13. **Vagus nerve stimulation as adjunct therapy in the treatment of anxiety disorders**, DARPA - Enabling Stress Resistance Workshop, San Diego, CA. (June 2009)
14. **Does synaptic protein translation underlie memory consolidation?** Annual Neurobiology of Learning and Memory meeting, Park City, UT (January 2010)
15. **Emotional modulation of the synapse** Annual Conference of the International Behavioral Neuroscience Society, Sardinia, Italy (June 2010)
16. **Stress effects on memory and the synapse** Annual Conference of the American Psychological Association. San Diego, CA (August 2010)
17. **Stress effects on memory and the synapse** Colloquium presentation, Institute of Neurobiology, Universidad Nacional Autónoma de México (UNAM), Querétaro, Mexico (September 2010)
18. **Vagus nerve stimulation enhances extinction of fear conditioning in rats** North American Neuromodulation Society, Las Vegas, NV (December 2010)
19. **Modulation of memory and plasticity by acute stress** Dallas Area Conference on the Neuroscience of Stress and Memory, Richardson, TX (May 2011).
20. **Vagus nerve stimulation enhances extinction of conditioned fear in rats** Annual Learning and Memory Winter Conference, Park City, UT (January 2011).
21. **Using emotional systems to direct neural plasticity** Dallas Area Conference on Emotional Learning and Memory, Richardson, TX (June 2014).
22. **Emotional Modulation of the Synapse**. Department of Psychology, The University of Iowa (summer 2014)
23. **Emotional Modulation of the Synapse**. Department of Psychology, The University of Texas Arlington (fall 2014).
24. **Emotional Modulation of the Synapse**. Professional Seminar in Behavioral and Brain Sciences, The University of Texas at Dallas (September 2016).
25. **Harnessing the Power of Stress**. Brain Matters Public Lecture, The University of Texas at Dallas (October 2016).
26. **Targeting Arousal Systems to Enhance Memory and Neural Plasticity**. Nanosymposium on Stress and Cognition, The Annual Meeting of the Society for Neuroscience (November 2016).
27. **Vagus Nerve Stimulation Enhances Extinction and Protects against Reinstatement in a Rat Model of PTSD**. Symposium on extinction and inhibition of drug seeking and fear-based memories, American College of Neuropsychopharmacology (ACNP; December 2016).
28. **Targeting Arousal Systems to Enhance Memory and Neural Plasticity**. Biology Department Seminar, Texas Women's University (April 2017)
29. **Targeting Arousal Systems to Enhance Memory and Neural Plasticity** Honors Seminar: Exploring Research, The University of Texas at Dallas (April 2017)
30. **Vagus Nerve Stimulation Enhances Extinction and Protects against Reinstatement in a Rat Model of PTSD**. Symposium on extinction of drug seeking and fear-based memories: Mechanisms and therapeutic implications, European Behavioral Pharmacology Society (August 2017).
31. **Effects of Stress on the Brain and Behavior** Sips of Science, Plano, Texas (October 2017)
32. **Preclinical Studies of Vagus Nerve Stimulation as a Potential Adjunct to Exposure-Based Therapies**. Department of Psychology. Texas Christian University (February 2018).
33. **Preclinical Studies of Vagus Nerve Stimulation as a Potential Adjunct to Exposure-Based Therapies**. Department of Pharmacology and Toxicology seminar series. Medical College of Georgia (March 2018)
34. **Targeting Arousal Systems to Enhance Memory and Neural Plasticity**. Center for Brain Health (April 2018)
35. **Vagus Nerve Stimulation Enhances Extinction and Protects against Reinstatement in a Rat Model of PTSD**. International Conference on Learning and Memory. Irvine, CA (April 2018).
36. **Preclinical Studies of Vagus Nerve Stimulation as a Potential Adjunct to Exposure-Based Therapies**. Waggoner Center for Alcohol and Addiction Research, The University of Texas at Austin, TX (September, 2018).

Pharmacologically Enhancing the Modification of Strong Modification Resistant Memories

PI: Jonathan Ploski

Co-I: Christa McIntyre & Sven Kroener

NIH/NIMH R01

(07/19 – 04/23) \$1,530,000 Total direct and indirect

Molecular Basis for the Induction of Reconsolidation Updating

PI: Jonathan Ploski

Co-I: Christa McIntyre & Sven Kroener

NIH/NIMH R56

(3/19 – 2/20) \$382,500 Total direct and indirect

Research Initiative, UT Dallas Office of Research

PI: Christa McIntyre & Catherine Thorn

Enhancing speech processing in a rat model of autism using vagus nerve stimulation

PI: Crystal Engineer

Mentors: Christa McIntyre & Robert Rennaker

NARSAD Young Investigator Grant, Brain & Behavior Research Foundation

Period: 1/2019-1/2021 \$70,000 Direct

DARPA ElectRX grant through Texas Center for Biomedical Devices

PI: Robert Rennaker, Co-Investigators: Michael Kilgard, Seth Hayes, and Christa McIntyre

(9/1/2015 – 9/30/2019) \$3,500,000 Total direct and indirect

DARPA seed grant through Texas Center for Biomedical Devices

CoPI, Michael Kilgard, Robert Rennaker, Seth Hayes, and Christa McIntyre

(4/10/2015 – 10/9/2016) \$632,609 Total direct and indirect

An adjunct to prolonged exposure therapy for treating refractory PTSD patients

Co-PI, Christa McIntyre and Navzer Engineer

National Institute of Mental Health, R43

(2/11/2016 – 1/31/2018) \$224,257 Total direct and indirect

Mechanisms of enhancement of extinction of conditioned fear by vagus nerve stimulation

PI, Christa McIntyre

National Institute of Mental Health, R15

(6/1/2013 – 5/31/2016) \$444,437 Total direct and indirect

Targeted Plasticity: Head-to-Head comparison of extinction effects of d-cycloserine vs. vagus nerve stimulation pairing with exposure to conditioned cues.

PI, Christa McIntyre

Texas biomedical Device Center

(April, 2014-August, 2015) \$42,000 Total direct

Use of vagal nerve stimulation as a method to enhance fear extinction

PI, Christa K. McIntyre and MicroTransponder Inc (Navzer Engineer, P.I.)

1R43MH086960-01A1 - National Institute of Health, SBIR

(7/1/2010 – 6/30/2011) \$198,899 total direct and indirect

Enhancing Fear Extinction Using Vagus Nerve Stimulation

PI, Christa McIntyre
Microtransponder Inc. contract
(2008-2009) \$21,593.00 total direct and indirect

Enhancing fear extinction using vagus nerve stimulation

Christa K. McIntyre
Microtransponder, Inc.,
(9/1/2009- 5/31/2011) \$36,000 direct and indirect

Doctoral student mentor:

Jayne McReynolds

Recipient of BBS Women in Biobehavioral Research Award (2008)
Thesis: *Basolateral Complex of the Amygdala Modulation of Encoding Emotional Valence and Arc Protein Expression* – Earned Ph.D. May 2012
Assistant Professor at the University of Cincinnati

Crystal Holloway

Thesis: *Interaction of the Amygdala and the Rostral Anterior Cingulate Cortex in the Consolidation of Long-Term Memory* – Earned Ph.D. December 2011
Postdoctoral Scholar at the University of Michigan in laboratory of Stephen Maren

David Pena

Thesis: *The Use of Vagus Nerve Stimulation to Enhance the Treatment of Posttraumatic Stress Disorder* – Earned Ph.D. April 2013.
Postdoctoral Scholar in Semel Institute for Neuroscience and Human Behavior, UCLA

Amanda Alvarez

Recipient of Dissertation Award (2015)
Thesis: *Molecular Mechanisms of Vagus Nerve Stimulation Enhancement of Extinction in an Impaired Animal Model*. – Earned Ph.D. March 2017
Medical Science Liaison at Reata Pharmaceuticals

Lindsey Noble

Nominated by UT Dallas for CGS/ProQuest Distinguished Dissertation Award
Thesis: *Effects of Vagus Nerve Stimulation on Extinction of Conditioned Fear* – Earned Ph.D. December 2017
Medical Science Liaison at Allergan

Current PhD students

Debora Calderon

Started fall 2019
Cognition and Neuroscience Program
Won UT Dallas Office of Research Poster Competition, Summer 2020

Derek Lehtonen

Started fall 2019
Cognition and Neuroscience Program
Co-mentor: Michael Rugg

Sina Kashef

Started spring 2020
Biomedical Engineering Program

Ya-Yu Hu

Started fall 2020

Cognition and Neuroscience Program

Krista Wahlstrom

PhD student at the University of Iowa

Co-Sponsor of F31 MH118754 *Basolateral Amygdala Projections in the Modulation of Memory Consolidation*

Winner of NIH Outstanding Scholar in Neuroscience Award

Master's student mentor:

1. Rosemary Wright
Graduated 2007
Physician, UTSW Psychiatry
2. Carrie Williamson
Graduated 2008
Intra-operative monitoring
3. Kyle Donowho
Graduated 2008
Ph.D. program at UTD
4. Maria Carriera
Graduated 2009
Ph.D. program, Harvard University
Professor at Florida State University in Panama
5. Michael Kandaloft
Graduated 2014
Medical School
Physician, UT Houston Psychiatry
6. Yousef Abdel-Raziq
Graduated 2014
Resident Physician Fort Worth, TX
7. Shawn Willet
Graduated 2014
PhD program, Duke University
8. Karthik Ramakrishnan Ramanathan
Graduated 2015
Ph.D. program, Texas A&M
9. Kayla Klein
Graduated 2015
Medical School, University of Michigan
10. Prathibha Sekar
Graduated 2015
Research Technician, UT Southwestern
11. Rachel Wilhelm
Graduated 2016
PhD program, University of Texas at Dallas
12. Charles Dam
Graduated 2015
Research Technician, UT Southwestern
13. Kimberly Griffin
Graduated 2017
PhD program, Yale University
14. Archana Iyer
Graduated 2018
Research Assistant, Harvard University
15. Peyton Demetrovich
Graduated 2019
PhD program, University of Texas at Austin
16. Ashif Shahid
Graduated 2020
PhD program, University of Lethbridge, Canada
17. Samantha Plas
Graduated 2020
PhD program, undecided

Classroom teaching: (*indicates core course)

1. Fall, 2006	HCS7372.002	Neurobiology of Memory and Emotion
2. Spring, 2007	HCS6336.001	Principles of Developmental Neuroscience*
3. Fall, 2007	NSC 4357.001	Brain and Memory
4. Fall, 2007	NSC 4353.001	Neuroscience Laboratory Methods*
5. Spring, 2008	ACN 6346/HCS 6346	Systems Neuroscience *
6. Spring, 2008	NSC 4353.001	Neuroscience Laboratory Methods*
7. Fall, 2008	NSC 4353.001	Neuroscience Laboratory Methods*
8. Fall, 2008	NSC 4353.002	Neuroscience Laboratory Methods*
9. Spring, 2009	NSC 4353.001	Neuroscience Laboratory Methods*
10. Spring, 2009	NSC 4353.002	Neuroscience Laboratory Methods*
11. Fall, 2009	NSC 4353.002	Neuroscience Laboratory Methods*
12. Spring, 2011	NSC 4353.002	Neuroscience Laboratory Methods*
13. Spring, 2011	NSC 4353.003	Neuroscience Laboratory Methods *
14. Fall, 2011	NSC 4353.002	Neuroscience Laboratory Methods *
15. Fall, 2011	NSC 4353.003	Neuroscience Laboratory Methods *
16. Spring, 2012	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
17. Fall, 2012	ACN 6346/HCS6343	The Neurobiology of Learning and Memory
18. Spring, 2013	NSC 4353.004	Neuroscience Laboratory Methods
19. Spring, 2013	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
20. Fall, 2013	ACN 6346/HCS 6346	Systems Neuroscience*
21. Fall, 2013	NSC 4353.002	Neuroscience Laboratory Methods*
22. Spring, 2014	NSC 4353.005	Neuroscience Laboratory Methods*
23. Spring, 2014	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
24. Fall, 2014	NSC 4353.005	Neuroscience Laboratory Methods*
25. Spring, 2015	NSC 4353.002	Neuroscience Laboratory Methods*
26. Spring, 2015	HCS 6346.001	Neurobiology of Learning and Memory Seminar
27. Fall, 2015	NSC 1100.007	Freshman Experience
28. Spring, 2016	NSC 4353.002	Neuroscience Laboratory Methods*
29. Fall, 2016	NSC 3361.002	Introduction to Neuroscience*
30. Spring, 2017	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
31. Spring, 2018	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
32. Fall, 2018	HCS 6346.001	Neurobiology of Learning and Memory Seminar
33. Spring, 2019	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
34. Spring, 2019	NSC 3361.HN2	Honors College Introduction to Neuroscience*
35. Fall, 2019	HCS 6346.001	The Neurobiology of Learning and Memory Seminar
36. Spring, 2020	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)
37. Spring, 2020	NSC 3361.HN2	Honors College Introduction to Neuroscience*
38. Fall, 2020	NSC 3361.006	Introduction to Neuroscience
39. Fall, 2020	HCS 6346.001	The Neurobiology of Learning and Memory Seminar
40. Spring, 2021	NSC 4357.001	The Neurobiology of Learning and Memory (optional core)

Service:**Panelist and ad-hoc grant reviewer for:**National Institute of Mental Health (NIMH)*Study Section:* July 2010 (**National Institute of Aging**; telephone conference)February 2012 (National Institute of Mental Health, **Learning and Memory** Panel; San Francisco, CA)September 2012 (National Institute of Mental Health, **Learning and Memory** Panel; Chevy Chase, MD)

June 2014 (National Institute of Mental Health, **Learning and Memory** Panel; Chevy Chase, MD)
 June 2015 (National Institute of Mental Health, **Pathophysiological Basis of Mental Disorders and Addiction** Panel; Phoned in)
 June 2016 (National Institute of Mental Health, **NIH BRAIN Special Emphasis** Panel; Tyson's Corner, VA)
 October 2016 (National Institute of Mental Health, **Pathophysiological Basis of Mental Disorders and Addiction** Panelist; New Orleans, LA)
 October 2016 (National Institute of Health, **Acute Neural Injury and Epilepsy**; Mail in reviewer)
 February 2017 (National Institute of Health, **Biobehavioral Regulation Learning and Ethology**, Member; Annapolis, MD)
 June 2017 (National Institute of Health, **Biobehavioral Regulation Learning and Ethology**, Member, Bethesda, MD)

 October 2019 (National Institute of Health, **Biobehavioral Regulation Learning and Ethology**, Member, Bethesda, MD)
 June 2020 (National Institute of Health, **Biobehavioral Regulation Learning and Ethology**, Member, Virtual)
 February 2020 (National Institute of Health, **Biobehavioral Regulation Learning and Ethology**, Member, Virtual)

National Science Foundation (NSF)

Panelist October 2009 (Arlington, VA)
 October 2011 (Arlington, VA)

Ad hoc reviewer (December 2013)

Human Frontiers Science Program (HFSP)

Mail Reviewer (November 2011)

Professional activities:

- Review editor for the journal *Frontiers in Behavioral Neuroscience*
- Review editor for the journal *Frontiers in Cellular Neuroscience*
- Co-editor of Research Topic: "Emotional Modulation of the Synapse" published in *Frontiers in Behavioral Neuroscience*.
- Co-organizer of annual winter conference on the neurobiology of learning and memory (Jan. 2010)
- Co-organizer of Dallas Area Conference on the Neuroscience of Stress and Memory (May 2011)
- Interviewed by Scientific American (July 2013)
- Interviewed by Lauren Silverman for NPR (October 2015)
- Interviewed by Dallas Morning News (October 2015)
- Interviewed by Melanie Brown at BBC Science Radio (November 2018)
- Cohen Veterans Bioscience Workshop contributor (September 2019)
- Interviewed by Ali Patillo at Inverse.com (October 2019)

Review journal manuscripts for:

1. Nature Communications
2. Journal of Neuroscience
3. Cerebral Cortex
4. European Journal of Neuroscience
5. European Journal of Pharmacology
6. Behavioural Brain Research

School of Behavioral and Brain Sciences Committees

- Undergraduate studies committee (2010-present)
- Faculty search committee (2009-2010)
- Graduate student recruiting and admission committee (2011, 2012, 2013)
- Website redesign committee (2013)
- Teaching effectiveness committee (2013- present)
- Committee to Identify Women in Bio-Behavioral Research Awardees (2013)
- Cognition and Neuroscience Program Review Committee (2013)
- Academic Advisory committee (2013-2014) (2015-2017)
- Associate Head of Cognition and Neuroscience (2014-2016)
- Head of Neuroscience Program (2014-2016)
- Chair of Faculty Search Committee (2014-2015)
- Lead move of Neuroscience research labs and offices to new building (2015-2016)
- Wrote SACS review of undergraduate Neuroscience Program (2015)
- Assisted in preparing SACS review of graduate program in Cognition and Neuroscience (2015)
- Chair of Cognition and Neuroscience PhD Admissions committee (2016)
- Chair of Cognition and Neuroscience PhD Recruiting committee (2016)
- BBS Strategic Planning Committee (2016)
- Head of Cognition and Neuroscience Program (2016-2017)
- Chair of faculty search committee (2 positions; 2016-2017)
- Chair of Cognition and Neuroscience PhD Recruiting and Admissions committee (2018-2019)
- Co-Chair of faculty search committee (3 positions; 2019-2020)
- Faculty search committee (1 position; 2021)

Course Development

- Neurobiology of Learning and Memory (undergraduate core)
- Neurobiology of Learning and Memory (graduate seminar)
- Neuroscience Laboratory Methods (undergraduate core)
- Organized Neuroscience Brownbag Series (spring 2010-fall 2011)
- Freshmen Seminar (fall, 2015)
- Organizer of Neuroscience Seminar Series (2020-2021)

University Committees and Activities

- Quality Enhancement Plan committee (QEP; April-December, 2007)
- Institutional Animal Care and Use Committee (IACUC; 2010-2014)
- Conflict of Interest in Research (2012-2014)
- Review and rank UTD applicants to Goldwater Program (2012-2014)
- BSB core facilities committee (2015-2016)
- VP of Research Search committee (2017)
- University Budget committee (2020-present)
- University Conflict of Interest committee (2020-present)
